Are you eager to cut through the noise and bureaucracy of corporate software development? Or just wanting to make a name for yourself in a dynamic team environment? Or perhaps looking for a reason to sharpen all of your skills? Anyone interested in cutting edge web and service based development is welcome. ITONICS is looking for an enthusiastic Frontend Developer to join our team.

ITONICS is offering:

A position with an established leader of innovation and strategic management enterprise software/solutions. Sounds boring so far. We are not focusing on millions of customers loving our location based dating app. We make market leading companies in all industries even stronger by boosting their innovation and strategic functions. This requires lots of solid development work and even more magic. If you are the type of person having fun within extreme complexity and building in some magic in your code - let's talk! At ITONICS you'll be part of an industrial dawn of innovation through insight and collaboration. Building large scale solutions to answer both demanding high level and concrete questions about the future. Welcoming experienced developers with various levels of savviness and focuses, ITONICS has a place for anyone that is devoted to technology and forward thinking. The ITONICS team is looking for eager and self-motivated individuals to drive solutions into the future. Please ONLY apply if you are available to undertake the position within Kathmandu, Nepal. Grab the chance to work in one of the most exciting and innovative areas in the industry in one of the most exciting cities on the globe - NOW!

Responsibilities:

- Development of complex TypeScript single page applications using Angular
- End to end delivery of concepts and prototypes in various technologies
- Working with a team in an agile environment (daily deliverables)
- Self-organized in daily work
- Maintaining readable, testable and scalable code
- Working with state of the art technologies like TypeScript, Angular, Sass, Ionic

At least 3 years' experience with the following skills:

- CSS3, Sass (or Less), HTML5
- TypeScript, JavaScript, Angular
- Typical development tools such as npm, webpack, Gulp (or Grunt) and Git
- Attention to detail and quality as well as advance towards perfectionism and self-reliance
- Fluency in business English is required

Our technologies:

- JavaScript (ES6), TypeScript
- Angular
- HTML5
- Sass and CSS3
- d3.js, RxJS

Company Benefits:

- Friendly, competitive and creative working environment with foreign managers
- Competitive salary (Greater than market for deserving candidates)
- 5 working days in a week(10am-6:30 pm)
- Powerful Laptops that you can also carry home
- Free Lunch from a top class restaurant.
- Accidental Insurance, Medical Insurance
- Paid leave, sick leave, vacation leave, work from home facility available
- Refreshment, Recreational, team building activities (Comparatively higher than other company)

Extra activity: Cricket, Futsal every week, Table tennis board is at the office

If you show a strong interest and are familiar with some of our technologies, let's talk!

Come on board! Our Kathmandu office is based in town in a new and modern office building providing a world-class working environment and offer you a handsome salary.

Candidates who have previously applied for a job at ITONICS but were not shortlisted for interviews are also encouraged to apply.
