Job Description

ITONICS, a leading software company based in Kathmandu, focuses on providing Strategic Foresight, Risk and Innovation Management, Idea Management tools. As a strategic partner, Lacuna Innovation, a research and management consultancy works together with ITONICS to provide relevant trend content, insights and analysis for the Lacuna Radar platform used by our clients. Find out more at www.lacunaradar.com

Lacuna is currently witnessing growth and is looking for a Socio-Political Researcher who will add value to a dynamic, multi-skilled and passionate group of individuals. The successful candidate, based in Kathmandu, Nepal, will work with the team, researching, monitoring and analysing trends impacting the energy sector, in Africa, as well as globally.

Areas of Involvement:

- Research content activation

- Update and maintenance of platform content
- Analysis and report writing

Primary Responsibilities:

- Researching and curating of industry information especially in the rubber and tyre industry
- Responsible for competitor intelligence and market research
- Identifying market trends and implications
- Develop analysis reports and newsletters
- Execute tasks as requested by the project lead

Secondary Responsibilities: (we foster an 'all hands on deck' culture):

- Maintain a global perspective on the future of the business and consumerism
- Support colleagues when requested
- Ensure text is well written and logically structured
- Ensure that quality consistent with company's tone and style

Environment

- Diligent, self-motivated and organized approach to work
- Innate curiosity about the world
- Ability to multi-task and eagerness to take on new roles and responsibilities
- Workplace professionalism blended with a good sense of humour
