Job Description

Build up Nepal is working with reconstruction of schools, healthposts and houses in rural area after the earthquake. We are looking for a structural engineer to do structural drawings and stress calculations for our projects. Duties also includes:

- Making load/stress calculations to be submitted to gov offices for approval.
- Making Structural drawings based on our architects designs.

The work is mostly for simple 1 or 2 story buildings using Earth Brick technology.

IMPORTANT: We need a person who can dedicate required time and deliver on time.
This is a freelancing job open for both individuals and engineering firms.
The contract is per project basis.

TO APPLY:

Interested and eligible candidates are requested to forward their updated CV mentioning the position applied to at info@buildupnepal.com
