- High-level proficiency in Sketch and/or PhotoShop/Illustrator
- An outstanding portfolio showcasing your talent

Job Description

We are looking for an experienced and talented UI designer to design and shape unique, user-centric products and experiences. The ideal candidate will have experience working in agile teams, with an experienced team of designers and developers. A candidate must be able to make deliberate design decisions and to translate any given user-experience journey into a smooth and intuitive interaction.

Key Responsibilities:

- Work closely with product owners, user experience designers and engineers to deliver user interface and interaction designs from concept through to final deliverables, for strategic projects as well as on-going incremental improvements
- Deliver high-standard, responsive visual design and interaction patterns with high-quality usability, using methods and tools such as Jobs To Be Done, user stories, user journeys, storyboards, sketches and prototypes
- Ensure your design work is informed & insight driven
