Job Description

Javra Software is seeking a Web Designer ready to make a long term commitment to an excellent career in Nepal. You will work as part of our world class outsourcing team developing desktop and web software applications for international customers.

We are looking for Web designer who enjoys working across technologies and sectors and who have an absolute passion for delivering best of breed technology solutions.

Role and Responsibilities:

Your responsibilities will include (but are not limited to):

- Design and create an exceptional user interface for web applications, mobile and desktop with a strong focus on user experience.
- Concept fresh ideas and turn them into brilliant design

- Create wireframes, storyboards, user flows, process flows and site maps to effectively communicate interaction and design ideas
- Convert your beautiful designs into working responsive websites. (PSD to HTML)
- Communicate with product owner to collect information and resources for new design projects.
- Refine designs to help increase conversions and improve the user experience.
- Establish and promote design guidelines, best practices and standards.

What we offer:

Javra Nepal is looking for candidates who are loyal and plan to make a long term commitment. In return for your loyalty we offer:

Perks and Discount

- Attractive Salary
- Provident Fund
- Monthly Mobile Phone allowance
- Daily Transportation Allowance
- Daily Lunch Allowance
- International Travel Opportunities
