WEB / Graphic / Mobile Layout Designer

- **Vacancy for:** 1
- **Posted on:** Nov. 29, 2017
- **Deadline:** Dec. 10, 2017, 11:55 p.m.

Basic Job Information

Job Category	: IT & Telecommunication
Job Level	: Entry Level
Employment Type	: Full Time
Job Location	: Kathmandu, Central Development Region, Nepal
Offered Salary	: Negotiable

Job Specification

Education Level : Under Graduate (Bachelor)
Experience Required : Not Required

Other Specification

- Experience developing high-quality, modern web applications
- Mastery of web-based UI development tools, technologies, and techniques, including JavaScript, HTML5, CSS, and asynchronous, event and promise-based programming models
- Experience in product design, information architecture and interaction design
- Cross-browser, cross-platform best practices and solutions
- Ability to turn complex problems into simple and engaging user interfaces for the web, mobile, and tablet
- Strong experience in CSS, HTML5
- Strong understanding of user experience and usability concepts
- Strong general software engineering skills - source control, unit/integration testing, continuous integration, etc
- Excellent interpersonal skills and ability to learn quickly in a dynamic environment
- Excited to solve complex problems in a sophisticated web application

Job Description

- Produce quality visual designs—from concept to execution, including those for desktop, web, and mobile devices at a variety of resolutions (icons, graphics, and marketing materials)
- Creating a cohesive style guide and ensuring that a consistent design language is applied across products
- Take the designs and translate into beautiful pixel perfect UI
- Work closely with our product team to define features needed to create a great user experience and world class applications
- Be a key contributor to new feature and tool design for clients and consumers
- Stay current on the latest design trends, standards, and practices
